Mr. Kemp, who a year or two ago
ministered so acceptably to the Anglican
congregation of St. Aldhelm's has re-
turned to Vulcan to become rector of the
church, a fact generally pleasing, for
Mr. Kemp is popular with all the peo-
ple, participates in the sports and com-
munity enterprises, and is an all-round
valuable citizen. Success to him.

Clover Leaf Rebekah Lodge is plan-
ning something different in the social
line for April 11th, to be held in the
Odd Fellows' hall. All Odd Fellows and
their ladies are cordially invited, as are
also visiting Odd Fellows and Rebekahs
who happen to be in town at this time.
Those who want to enjoy a good laugh,
be there at 8:30 sharp. Dancing starts
at 10 o'clock, with a five-piece orchestra.
Supper at 12. Tickets \$1.25.

The opening of the football season in
Vulcan will take place on Friday next,
Good Friday, and a holiday. The opo-
nents of the local eleven will be the
Ogden shop team from Calgary, an or-
ganization of smart and husky fellows
who put up a real show when it comes
to playing football. This team has pre-
viously performed in Vulcan. Preparations
are being made to give the season an
auspicious start.

The Good Deeds Women's Institute,
represented by Mrs. Forrester, held their
annual celebration of Good Deeds Day in
Boys' school recently. The mothers and
children of the district were in attend-
ance. Mrs. Kennedy gave a very interest-
ing talk concerning Good Deeds, after
which the following program was ren-
dered by the children: "O Canada";
recitation, Harold Bride; recitation,
Wylie Galloway; chorus, audience; re-
citation, Vern Parson; dramatization,
Grade 2; recitation, Kenneth Galloway;
recitation, Darrel Galloway; chorus,
audience; dialogue, senior pupils; re-
citation, Lawrence Munday; recitation,
Rita Galloway; chorus, school; recita-
tion, Neal Zahnd. A delicious lunch was
served by the ladies, and everyone de-
parted feeling satisfied that no institu-
tion could live up to its name any bet-
ter than the Good Deeds Institute.

The annual meeting of the Vulcan
Rest Room Committee was held in the
rest room on Saturday, April 2nd. The
meeting was well attended. It was de-
cided to have a women's exchange estab-
lished at the rest room, ten per cent to
be charged for selling articles, and Mrs.
Gold, Mrs. Martin and Mrs. Wm. Camp-
bell were elected committee on same.
A payment of \$50 on building account
was authorized, and the balance to be
paid on the building is now reduced to
\$750. The treasurer presented a detailed
statement of receipts and expenditures
which shows a splendid cash balance on
hand. This statement will be published
later in The Advocate. The following
officers were elected: President, Mrs.
Gold; Vice President, Mrs. Richardson;
Secretary-Treasurer, Mrs. Brown. There
is to be an executive meeting in the rest
room the last Saturday of each month, at
three o'clock, and all interested are in-
vited to attend.

LOCAL ITEMS

Hotel Royal, near C.P.R. station, on
main street, Vulcan. Rates 50c., 75c., \$1.

Communion service will be held at the
United Church on Sunday morning at the
usual hour.

It was ninety two dollars, the proceeds
of the show, which the Elks donated to
the Rest Room, instead of fifty, as stated
in error by The Advocate last week, and
the correction is gladly made at the first
opportunity.

Though it has not been officially re-
corded, it is a fact that Mr. Donald Sin-
clair has resigned his position as bailiff,
and being persistent in his determina-
tion, the same has been accepted. Mr.
Sinclair will continue in his general in-
surance business and give attention to
the sale of Nash automobiles. His suc-
cessor as bailiff has not been gazetted.

Mrs. A. J. Kennedy will spend a few
days with Miss Rinehart as a patient at
the local hospital, the result of an acci-
dent at the Kennedy home. While about
household duties and giving attention to
cooking something of an explosion hap-
pened and Mrs. Kennedy suffered to the
extent of a scalded and burned arm, and
though the injury is painful enough it is
not expected that there will be any per-
manent effects. Being a hospital patient
is quite a reverse of the pleasure of being
a visitor to Barons, where Mrs. Kennedy
spent the past couple of weeks with
friends.

The footballers have been out for a
number of work-outs, and from the
first the prospects are for a good
team. The grounds are being improved
to a considerable extent and the
lay-out will be as good as any in the
south country. Negotiations are on
for a game in Vulcan on Good Friday,
but announcement of the visiting
team cannot yet be definitely made.
Football fans are anticipating with
unusual interest the opening of the
season.

Mr. Thode Steenson has returned to
the district after three months spent
in his native land, Denmark. The
visit to relatives and friends was a
fine pleasure, but the general condi-
tions in the old land did not have any
appeal even to a Dane who has spent
years in Alberta and the Vulcan dis-
trict. Mr. Steenson acted as uncle to
a party of Danish boys and girls who
desired to come out to this country to
secure employment, and the three
young women of the party who came
to Vulcan were engaged immediately
after arrival. Mr. Steenson has
shown qualifications of a real immi-
gration agent.

The regular meeting of the Vulcan
Women's Institute was held in the
parlor of the United Church on April
first, and there was a good attend-
ance. The basketry demonstration, to
be held May 4 to 9, was discussed, and
committees in connection with same
were appointed; a baby clinic will be
held in the rest room on May 4, and
Mrs. Jack Marshall was appointed
convenor. The committee in connection
with the St. Patrick's dance re-
ported a profit of more than one hun-
dred and fifty dollars. A very inter-
esting paper on child welfare was given
by Mrs. J. Marshall. A question-
aire on home nursing was also pre-
sented by Mrs. Marshall, and the prize
given for the most complete set of
answers was won by Mrs. George
Monkman. Mrs. Smith very capably
rendered a vocal solo, and was accom-
panied on the piano by Miss Beulah
Walker. At the close of the meeting
a dainty lunch was served by the hos-
tesses, Mrs. Smith, Mrs. King and
Mrs. Ulrich.

LOCAL ITEMS

Miss Ella Hammren, of Canmore, is
here on a visit with Mrs. George Mc-
Mann.

The members of the Vulcan Wom-
en's Institute take this opportunity of
thanking all those who contributed to
the success of the St. Patrick's dance,
and a special vote of thanks is tendered
to the gentlemen who so kindly as-
sisted in so many ways during the eve-
ning.

There was an error of omission in
the report last week of the band con-
cert. Credit was not given to Miss
Helen Simington, who contributed a
vocal solo and was required to re-
spond to an encore. The omission was
mentioned by those who appreciated the
program.

Mr. A. J. Flood attended the legis-
lature at Edmonton last week as a
member of a delegation representing
the oil operators in the consideration
of the question of the hours of labor
in the oil fields. Mr. Flood witnessed
the interesting ceremonies in connec-
tion with prorogation.

Charged with having failed to make
income tax returns, as required by the
law, nine farmers of the Vulcan and
adjoining districts were in court in
Vulcan last week. E. J. Charters, J.
P., presided, and assessed a fine of
\$25 and costs each. The department
of government prosecuted.

"Vulcan Leads Division" is the dis-
play heading of an article in The
Lethbridge Herald which gives promi-
nence to Vulcan in the matter of
grain shipments and concludes with
the following: "Vulcan to date has
an enviable record, having shipped
1,454,418 bushels of wheat and has
still in store 65,557 bushels."

Without ostentation, the British
American Oil Company come into Vul-
can, secure a lease on the railway,
build a warehouse, and proceed to go
into business. Two tanks of immense
capacity are here awaiting erection,
and other equipment is also on the
site. The judgment of this great com-
pany apparently is that Vulcan and
district is the place to get business.

The town council of Vulcan has
given permission for the construction
of a double tennis court on the play-
ground park, for the use of the "teen
age boys and girls who have organ-
ized the what is known as the junior
tennis club. The council will also sup-
port the idea, which is also being as-
sisted by the Elks. The boys and
girls are very active on their own be-
half.

Mr. Arthur Key is to be the
townsman and constable at Vulcan. It
was so decided at a meeting of the
town council on Wednesday afternoon.
The new man, who will enter upon his
duties about the fifteenth, is known to
many in Vulcan, having been employ-
ed here some years ago with the Im-
perial oil company. His wife and
four children will make up the family
that will shortly become an addition
to our rapidly increasing population.

The sale of horses on Saturday,
conducted by Auctioneer Jack Tomp-
son for Mr. Henry Ernst, was a suc-
cess. The prices were fair and the
horses good. On the same day at the
same place, Auctioneer Rebbe con-
ducted a splendid combination sale,
the last regular event of the kind until
after seeding. There is pleasing co-
operation of the auctioneers, and
Charlie even lends to Jack his hook-
case, an adjunct that seems to be
necessary to the proper conduct of an
auction.

Progress, and rapid progress, is the
report that can be made on the opera-
tions of the promotion committee in
connection with the municipal hospital
scheme. This committee, under the
chairmanship of Mr. Everett McPherson,
is creating a record in the process
required under the hospital law. The
organization is complete and mem-
bers of the committee are active
and enthusiastic, with the result that
the necessary petitions have been cir-
culated and signed and the mode of
procedure continues. It is significant
that the percentage of signatures re-
quired has been exceeded by two to
four times the number in every dis-
trict of the area, indicating almost to
a certainty the success of the by-law
when the vote is taken. However, this
will not lessen the determination to
give all a thorough exposition of the
details of the scheme, the idea being
to have a satisfied people as far as it
is possible.

LOCAL ITEMS

Mrs. D. Mathias, of Fort William,
is in Vulcan on a visit to her sister,
Mrs. D. C. Jones.

Mr. Floyd Atkinson was a patient
at the Vulcan hospital, following an
operation for the removal of tonsils.
He is coming along all right.

Mr. Art Warner, known as the Vul-
can flying man on the air force at
High River, has been transferred to
Camp Borden, with a possible further
shift later to Hudson's Bay.

Mrs. Jack Tompson, of Calgary, is
visiting with her mother, Mrs. Wm.
Hay, and will for some time be a
guest at "Cozy Hole" farm, north of
town.

Central Church of Christ announ-
ces service to be held in the Odd Fel-
lows' hall, Vulcan, on Sunday, April
10th, at three o'clock, conducted by
Rev. M. B. Ryan, of Calgary.

Mrs. Dyce Allan has gone to Cal-
gary for a few days, and while there
will say good by to friends who are
going East, and will take in the per-
formances by the D'Oyley Carte op-
era company.

Mr. Russell Carruthers and family
have recently returned to Vulcan
from Calgary. Mr. Carruthers will
resume his interest and position in
connection with the Madison parlor
and has gone into business as a bar-
ber.

Material is on the ground for the
building that is to serve as a show
room for the Nash car agency, which
agency will be operated by Mr. Don-
ald Sinclair. The work of erecting
the building will be undertaken at
once.

Mr. Oscar Tideman is another Vul-
can patient in a Calgary hospital, fol-
lowing a surgical operation for ulcers
in the stomach. The operation was
entirely successful, and though Oscar
is having a bad enough time of it his
ultimate recovery is assured.

Councillor R. N. Broderick, return-
ing home after a period as a patient
in the High River municipal hospital,
called on The Advocate man to deliver
a message or two from the old
town, and in conversation was profuse
in his praise of the hospital and staff.

Mr. Billy Trevannon, of Vulcan,
who figured as a principal in the
main bout of a boxing show at Lo-
mond on Monday night, was knocked
out in the sixth round of a ten-round
fight, by Joe Palmer. Billy fought
gamely and lost like the sport that he
is. Vulcan was represented by specu-
lators at the show and their report is
that the card was a good one.

Sandpit school opened on Monday
with an enrolment of eight pupils.
This is a new school, a short distance
from Vulcan, and Miss Roebuck,
of Blackie, is the teacher. Snake Creek
is another new school recently opened
in this vicinity, and the teacher is
Miss O'Neil. Both of these schools,
it is anticipated will participate in
the Vulcan and District School Fair.

Mr. John Naismith was back to
town for a few days during the week
and surely got the glad hand from
many friends, and the pleasures of
the visit included a few games of
bridge with the old gang. Mr. and
Mrs. Naismith came from Victoria
and will spend the period of some
months in the prairie country, mak-
ing Calgary the centre of their resi-
dence. They bring messages of greet-
ings from Mr. and Mrs. Clyde Hall
and other Vulcan residents on the
coast to friends here.

That portion of the excellent prop-
erty owned by Mr. James Donaldson,
and facing the recreation park, has
been purchased by Mr. Pete McAskile
and a residence of fair size and good
appearance will be erected thereon.
The material is on the ground, being
a building brought here in sections
from a town in the south, where it
was in times past the residence of Mr.
McAskile. Not always do new citi-
zens bring their houses along with
them, but this has been the case a
number of times in Vulcan, where
houses are always in demand and dif-
ficult to secure. Mr. D. O. Robinson
has the contract for this difficult op-
eration of taking down and shipping
and re-erecting the building.

Notices have been issued to all
members of the Vulcan branch of the
Canadian Legion to attend a meeting
to consider what is termed a mem-
orial hall scheme. This indicates action
in connection with the proposition to
erect a proper building to replace
that which now serves as a club and
which will provide a service and ac-
commodation not now available. Many
are the ideas and plans that have been
suggested, and the interest manifested
creates the prospect that Vulcan
will soon have a building in keeping
with ambitions and requirements of
the Vets, and one that will give ap-
pearance to the town. It looks like
an enterprise that would have gener-
al and hearty approval.

LOCAL ITEMS

Conspicuous are the improvements

Sunday, April 10th, Sunday school 10
a.m., morning prayer 11:00 a.m., ev-
ensong 7:30 p.m. Easter Sunday, Ap-
ril 17th, holy communion 8:30 a.m.,
Sunday school 10:00 a.m., Choral Eu-
charist 11:00 a.m., evensong 7:30 p.m.

Ten minutes to ten on Saturday
night the fire alarm rang, and the citi-
zenry responded with a promptitude
that is commendable, and were lucky
to find that it was all a mistake.
Flames in much volume were issuing
from an incinerator in such manner
as to give the appearance of a building
on fire.

Mr. Will Butchart is home from
Calgary, where he has been a student
at the Technical School. He will not
return at least until some time this
fall. He is enthusiastic over the call-
ing which he has chosen, and makes
interesting his conversation in refer-
ence to incidents in connection with
his course at the school.

The pole line is being extended in
the south end of the town to give light
and power service to Mr. E. G. Mc-
Pherson, who is installing an electric
motor for use in connection with his
extensive farming operations. The
service from the Vulcan Light and
Power Co. will replace the small plant
which has heretofore been operated on
the farm.

Mr. "Billy" Meyers, who farms at
Reid Hill and resides in Calgary dur-
ing the winter, has made fame for
himself in the line of sport, having
been captain of a city volleyball team
that won the championship cup, and
was a member of another team that
captured several fine trophies. Mr.
Meyers was in Vulcan the other day
on his way to the farm, but was too
modest even to mention his accom-
plishments, the information coming
from Calgary sources.

Little "Toodles" McTaggart, one of
the Vulcan appendicitis patients at
Calgary, has returned much improv-
ed after a second operation. She was
a patient at the same hospital as Max
ine Mutz, and was in a nearby ward,
and to Mrs. Mutz she is grateful for
sharing the flowers and other gifts
between the classmates at school who
were neighbors in the time of illness.
Daily reports on the condition of
Maxine have been for the most part
encouraging, and add to the general
hope that recovery will not be very
long.

Improvements are still being made
by Mr. Steve Forrester on his splen-
dently equipped farm south west of Vul-
can. The latest addition is a home
for the help and before putting in the
partitions that will make it an excel-
lent house, the entire floor space was
utilized for dancing by a party of
neighbors and others friends, who
were the guests of Mr. and Mrs. For-
rester on Thursday night of last week.
It was indeed a jolly good party. It
was a stormy night and the many
cars which brought the guests had to
be housed, and this was easy on this
farm, for on it there is one of the largest
implement buildings in this coun-
try.

The play "The Arizona Cowboy"
which was put on at the Alston com-
munity hall, was a huge success. The
hall was packed to the doors. People
from districts all around, including
Champion, Parkland and Vulcan, were
there. The young wild west has not
yet passed away, and you see it in full
force in this play. Each character
did his and her part well, and the au-
dience was thrilled one moment, in sus-
pense the next, and then, holding their
sides from laughter, awaited the next
thrill. Between acts, Mr. Campbell,
from Champion, favored the audience
by singing solos, and was heartily
applauded. You will not be sorry if
you take in this play. It is one that
you will not soon forget. You owe it
to Young Wild West. "The Arizona
Cowboy" will be presented at the op-
era house in Vulcan on April 14th,
and the excellence of the show and
the fact that the proceeds are for the
promotion of sport for our girls and
boys should and no doubt will be suf-
ficient to secure a capacity house.

VULCAN, ALBERTA

COMMUNITY DEVELOPMENT

Recently the writer of this article had a call from a representative of one of the largest and most enterprising colonization companies operating in Canada. He told of the millions of dollars his company were spending in bringing out settlers and establishing them on the land. During the conversation he told of one of the first things that they always insisted upon when these settlers arrived and that was the necessity of these settlers making all their purchases, as far as possible, from their community merchants. Being asked the reason, he said, "Well, we have found from years of experience that by encouraging the 'buy at home' method and in so doing educating our new settlers to the community spirit idea, that invariably they turn out to be very successful farmers." "The reason," he continued, "is plain because unless you establish harmony in a district, we find our task a very hard one and it generally ends disastrously for both ourselves and the settlers, and harmony can only be established and maintained by the development of community spirit." He concluded by saying "We have never had to take land back from any of our settlers in districts where they work together for each other's success, and in these districts you will find both merchants and farmers working for the common good of the district and profiting by so doing." We thought this a pretty fair and truthful way of determining a successful community. If any district is to be thriving and successful, it must be brought about by team play. The merchants in your town are just as necessary as a plow is to turn the sod, and any community dweller who does not do his share towards maintaining these merchants by making their purchases from them, is only going to eventually cut off his own nose to spite his face. Patronize your home town merchants. Make your slogan "My Community First," and you will be the gainer in the end.

The provincial government lost a mighty good man when Colin G. Groff resigned this week as provincial publicity commissioner which position he held for several years and filled with great credit to himself. Mr. Groff has been a resident of Alberta for 21 years, being engaged in newspaper work prior to being appointed publicity commissioner five years ago. He will leave this week for Montreal to accept a position with the Colonization department of the C. N. R. and will take charge of the marketing tour now being organized by the C.N.R.

Civil servants are granted an increase of \$10 per month, and, generally speaking, they deserve it.

An exchange remarks: "Roses are always in bloom in Florida." Yes, and the palms are always outstretched.

FATHER AND SON

Three hundred and twenty-six children in a school district were asked to write anonymously just what each thought of his father. The teachers hoped reading the essays might make the fathers to attend a meeting for such a purpose. It did. They came in \$400 cars and \$4,000 cars. Banker and laborer, professional men, clerks, salesmen, merchants, farmers, manufacturers, mechanics, every man with a definite estimate of himself in terms of money, skill, righteousness or looks. They sat spellbound as the chairman read a tribute to a stepfather, a tragic revelation of blight caused by moonshine liquor, the description of the dream-father of a widow's child, a dozen vague allusions to strange fathers, gone early, home late with time for nothing but reading and sleep, some timid pieces written in fear of a quick temper and heavy hand. The chairman picked at random from another pile of papers. The sky cleared. "I like my daddy," he read from some. The reasons were many. He built my doll house; took me coasting; taught me to swim; helped with my school work; takes me to the park; gave me a calf to fatten and sell. Scores of essays could be reduced to: "I like my daddy; he plays with me." Not one child mentioned his family house, car, food or clothing. The fathers went into that meeting from many walks of life; they came out in two classes—playmates to their children or strangers to their children. No man is too rich or too poor to play with his children.

LESSONS OF LIFE

Every person should go to the cemetery at least twice in life. Once at the end of life, and first early in life to reflect on the brevity of life and the insufficiency of worldly goods. There is no place like a quiet churchyard for meditation and there is room in every life for more serious thought. The tombstones hold a moral for all living. There is inscribed the human virtues, but among the inscriptions there is no record of estates left behind, fortunes made and spent and worldly fame attained. The magnitude and sculpture of the stone or the vault alone remain to remind the world of "the boast of heraldry and the pomp of power." Why should human beings worry and struggle through life's fleet span in pursuit of wealth, fame, luxuries, vanities and all those other evanescent things we choose to call riches? The poor are distressed by too little money, the moderately wealthy by the thought that others possess more wealth than they, and the rich by too much money. The Garden of Paradise was paradise only so long as Adam and Eve entertained no thought of worldly things. There were no pestered bank accounts, troublesome servants, expensive automobiles, business worries and social and fashion detractions in Paradise. Few people have learned the secret of living well. Most of us measure contentment in terms of dollars and social position. The number is negligible which views life as a golden opportunity to work and think and be joyful.

Natural Resources weekly bulletin states that "Canadian hens are the world's best layers." They ought to be. Everybody appears to be laying for us these days; even the government gas tax, amusement tax, sales tax, race track tax, and others too numerous to mention, opines the Red-cliff Review.

YOUTH AND ADVERTISING

"Fifty years ago boys and girls were adept at weaving rag rugs, knotting quilts, carding wool, spinning homespun and stretching carpets. Today boys and girls know the entire abc of the automobile, the electric household utensils, the steam heat system, the aeroplane and the radio. But the youth of today knows little of what constituted the store of knowledge of the youth of yesterday. The omniscience of youth in every era is ever amazing, but that of today would be inexplicable but for one thing more than all others. That advertising. In the newspapers, magazines and poster boards children are finding a vast storehouse of practical and useful information and instruction. The value of this incidentally acquired knowledge can not be measured in classroom hours. The youth of Canada is finding that advertising pays. Psychologists have expounded the theory that truths are sometimes observed first by the adolescent. In the case of advertising it may truthfully be said that there are some of mature age who have not yet learned the value of advertising. Advertisers do not buy newspaper, magazine and billboard space for the edification of the public, either juvenile or adult, but they recognize the children of today are not only a potent factor in the business of today but the deciding factors in the business of tomorrow.

Instead of Canada being spoken of as the "Granary of the Empire" she now aspires to a wider title, for in 1926 she led all countries in the export of wheat and flour, having exported 212,000,000 bushels of wheat. Argentina came a poor second with a little less than 65,000,000 bushels; Australia with 43,000,000; and the United States with 40,000,000; thus Canada alone has exceeded the exports of these countries by over 64,000,000 bushels. Canada's exports of flour amounted to 8,163,000 barrels; the United States 7,430,000 barrels; and Australia, 3,750,800 barrels.

Alberta needs immigrants. Every settled farm community has room for a few new colonists. It is to the district's distinct advantage to get them. Every additional family settled in a community means idle land rendered productive, reduction in taxation and the increased development of social life. In addition, it means the spending of \$1,500 each year at local stores on food, clothing, building material and other requirements. Every farmer should be keenly alive to the possibility of developing his own district by finding a place for a new family.

Just what impression the Calgary West member is making at Ottawa can be gathered from this observation of Chas. W. Bishop, the dean of the Press Gallery, in one of his daily articles on the proceedings of the House of Commons: "Mr. Bennett made such a fervent plea as to cause a wise man upstairs to remark that the church lost a great local preacher when R. B. donned the flowing robe in place of mounting the pulpit.

An exchange remarks: Canada has one golf course for every 19,393 inhabitants; in the United States there is one for every 25,793 persons. Yes, and strange to say, one language suffices for all.

We are told it costs Canada \$15 a minute for speechmaking in the federal house. We know several members who should be gagged.

WORKMEN'S COMPENSATION

A total of 8,930 accidents were registered with the Workmen's Compensation Board of the province during 1926. Of these 58 were fatal, 87 gave permanent disability and 8,785 gave only temporary disability. Total compensation paid was \$298,404.40, with \$391,005.98 transferred to the Pension Fund and \$234,770.42 paid to pensioners. There are 174 widows, 370 children and 231 permanently disabled workmen drawing monthly payments from the pension fund. The payroll of industries under the Compensation Act totalled \$60,367,229.16 in 1926, with a total of 47,578 employees.

NEWS OF INTEREST

Louis Kén, trade delegate to the Union of Soviet Socialist Republics, confirms the report that an order for \$1,000,000 of binder twine has been placed by Russian interests with a Brantford firm. Other large orders for Canada are pending.

New York, Montreal and Chicago financial men are reported to be combined in the plan to construct a 600-ton paper mill at Whitemud Falls, for which application has been made to the Federal Government. Timber limits involving 11,500 cords of pulp.

The largest shipment of blooded stock ever sent to Canada is now on the Atlantic and will reach Canada in a few days. There are forty race horses in the consignment which is being forwarded by Major Liddington of Thame, England, and they will be divided between Ottawa, Winnipeg and Vancouver.

Again Calgary maintains its record for holding the largest annual auction sale of purebred bulls in the world. A total of 661 bulls have been entered by 163 breeders from all parts of Alberta, even from further north than Peace River. Only on two occasions have larger entries been received.

Saskatchewan and Alberta are supplying most of the horses that are to be auctioned off at Montreal on the morning of March 28th. While heavy draught horses, Percherons and Clydesdales, and the like, will form the staple of the sale, there will be a few riding and driving horses bid for as well.

Canadian bond sales this year to date run to \$80,162,752, as compared with \$182,442,246 for the same period of last year and \$142,460,473 for that of 1925. Government issues amounted to \$36,250,000; Municipal to \$17,718,452, and Corporation to \$26,193,800. The United States purchased \$40,870,000 and Canada \$39,292,752.

Western Canadian farmers have the lowest freight rates in the world, according to Senator the Hon. C. P. Beaubien, addressing the Canadian Senate. In Canada it costs 12 cents per bushel to move grain 794 miles, while in the United States it costs 22 cents per bushel to move grain 708 miles. The average rate per bushel on all grain in Canada, he stated, was about 15 cents, whereas in the United States it was 30 cents, and still higher in the Argentine.

Exports of Canadian wheat flour to Brazil in the seven months ending October, 1926, were nearly 1,000 per cent. above the corresponding period of the previous year. Trade Commissioner Bleakney says that now that Canadian hard wheat flours are favorably known in Brazil, a substantial continuance of this business may be expected if Argentine wheat prices are not too low. The seven months' figures were 250,550 barrels of flour at \$1,773,034, as compared with 25,333 barrels at \$172,869 for the same period of 1925.

Owing to the discovery of a new process for tanning rabbit skins, the despised snowshoe rabbit of Western Canada is developing into a new source of revenue for settlers in Manitoba, Saskatchewan and Alberta. Especially has this been true of the northern sections or park and wooded area. A reliable estimate made of the 1926-7 winter catch places this in the neighborhood of 2,000,000 pelts with a revenue of some \$200,000. Untanned skins are sent to New York and London to be used in a variety of ways, and fox farmers are heavy buyers of rabbit carcasses.

The British Government has been asked to send experts to Canada in April to conduct a preliminary survey in connection with the proposal to erect mooring masts in this country for dirigibles. At the Department of National Defence it was stated that the personnel of the British party had not been named, but that it would likely include Major G. H. Scott, who flew the "R. 34" across the Atlantic.

The Alberta Government telephone system showed a profit of \$270,000 in operation in the year 1926, according to the annual report of the Department. There was an increase of revenue over 1925 of more than \$454,000. There are now 20,413 rural subscribers and 36,517 subscribers on the urban system, making a total of 56,930 subscribers for the entire system, an increase of about 500 over the previous year.

NEWS OF PROVINCE

The death of Captain Bartlett at the age of 84 years, removes an interesting character from this vale of tears. Captain Bartlett had the sturdy adventurous spirit and explored for many years in the arctic regions.

Mr. Wm. McFadden is loading out this week for High River where he has purchased a half section from Mr. Sage west of town. Mr. and Mrs. McFadden will be missed from this district having resided here twelve years and always been closely associated with U. F. A., church and all community projects. On behalf of the district, they were presented with a beautiful arm chair on Friday last as well as Mrs. McFadden being showered with handkerchiefs by the Ladies Aid. We join in best wishes to Mr. and Mrs. McFadden in their new home.

The total assessed value of all lands in Alberta for the purposes of the supplementary revenue tax collected by the Government, was five hundred and five millions of dollars in 1926, states the report of the Department of Municipal Affairs. Of this amount, the assessed value of property in the cities was seventy-seven million, eight hundred thousand dollars; in the towns it was ten million, one hundred and sixty-one thousand dollars; and in the villages it was four millions, eight hundred and sixty-nine thousand dollars. The assessment of rural lands totalled \$417,348,000. The report states that the finances of the rural municipalities have been greatly improved in the past year.

What was described by Hon. Geo. Hoadley, Alberta Minister of Agriculture, as the greatest event in the livestock history of Canada, took place in Calgary on Wednesday evening last, when at a banquet provided by the Calgary exhibition board, livestock men from all over the dominion, together with other notable men in other walks of life, were present. It was probably the greatest gathering of its kind ever held. Among the prominent guests present were Lieut. Governor Egbert, Hon. Dr. Tolmie, former federal minister of agriculture; R. J. Speer, president Winnipeg livestock exchange; S. W. Rowley, assistant general manager, Canadian Bank of Commerce; Hon. Duncan Marshall, former Alberta minister of agriculture, officials of departments of agriculture and livestock associations throughout the dominion.

Judge Macdonald has given judgment for \$397.85 and costs in favor of Mike Moxin, of High River against Calvin W. Rowley, of Calgary, in an action for damages, resulting from a motor car collision, which took place on October 19, 1925, about six miles north of High River. Mr. Moxin was travelling from High River to Calgary, while Mr. Rowley was travelling in the opposite direction, when their cars collided. The learned judge found that the defendant was liable because, that, at the point at which the impact took place, the defendant's car was more than two feet to the east of the centre line of the road, and that the plaintiff had no reason to believe that the established rule of the road would not be observed by the defendant. Counsel for plaintiff, A. A. Ballachey, of High River; counsel for the defendant, E. C. Snider, Calgary.

Confirmation of the dates for the Field Trial Club spring meet at High River for April 15, 16 and 17, was made at a meeting held last Friday. The age limit for junior and senior puppies and entries for the Derby stakes, was another matter settled by the club members. Junior puppies will be limited to April 1, 1926, and any subsequent date; senior puppies, January 1, 1926 and any subsequent date; Derby stakes, January 1, 1925, and any subsequent date. The club received word from H. A. Gooder, of Bain, Wash., who will judge at the meet, that he would be in Calgary a couple of days before the competitions. It is expected that 40 or 50 dogs will take part in the field trials and these will include entries from all over the province. Any further information may be secured from J. M. Miller, club secretary, at the city hall, Calgary. M. R. Christie, club president was chairman of the meeting.

PROVINCIAL HEALTH

An encouraging feature of the report of the Public Health Department of Alberta for 1926, is the great improvement in the diphtheria situation. In Lethbridge alone, it is stated, the annual number of cases has been cut down from 80 to 8. The improvement has come about as a result of the use of the toxoid. In foreign districts, 3,155 persons have been given this treatment. A total of 18,350 people were given vaccine during the year.

The Nursing Branch had 130 schools under inspection during the year, in which 2,091 first inspections and 1,194 re-inspections were made. Home visits totalled 335, and 13 child welfare clinics were held in rural districts. In the three cities of Edmonton, Calgary and Medicine Hat, 200 clinics were held, with a total attendance of about 10,000. The district nurses in the frontier districts made more than 1,000 calls during the year, with 547 medical cases, 164 surgical cases, and 33 obstetrical cases to attend to.

The travelling clinics which visited outlying districts, examined 746 medical cases, with 212 operations performed for tonsils and adenoids, 321 dental treatments. The scope of these clinics will be extended this year. Four new municipal hospital districts were created during the year, and all districts are in good shape financially. There are 76 approved hospitals in the province altogether, including city hospitals, and 75 private hospitals.

The vital statistics report shows 13,893 births registered for 1926, with reports still to come in; 4,473 marriages—an increase of 219; 154 divorces—an increase of 53; and 5,125 deaths—an increase of 724.

In the mental hospital at Ponoka there are 886 patients, an increase of 68. There were 313 admissions during the year and 177 discharged, of which 78 were cured, 63 improved, 15 not improved, and 21 not insane. The recovery rate is 29.76 for males and 28 per cent. for females. At the Oliver Institute, for feeble-minded, there are 215 in residence, and at the training school for mental defectives at Red Deer, there are 137 patients.

EDUCATION IN ALBERTA

During the year 1926, 39 new school districts were erected in Alberta compared with 25 in 1925. Three rural high schools were also created, making 5 now in operation, at a cost of \$6 per quarter section.

The total enrolment in public and high school of the province for 1926 was 150,526, compared with 147,794 in 1925. The daily average attendance was 110,927. The rural schools were able to keep going 184 days in 1926 compared with 178 days in 1925. The new grants provided for rural schools under certain conditions brought benefit to 667 one-room schools.

There is a growing demand for secondary education, especially in rural schools, where 62 per cent. of those in Grade 8 took high school entrance exams compared with only 48 per cent in 1925. A total of 3,428 left school at the age of 15, which is a decrease over former years. A total of 1,189 left at Grade 8. There are 3,041 school districts in operation in the province.

In the Technical Institute, there were 1,166 students. In the special correspondence course for children in outlying rural districts, there were 225 enrolled, with a total of 900 since the course was instituted.

At the Alberta University, there were 1,302 students registered in all courses in 1926.

Alberta will spend \$2,400,000 on highways and bridges the coming year, according to a statement made by Hon. O. L. McPherson, minister of public works. This will include \$1,000,000 on main highways, \$650,000 on market roads, the balance being on maintenance, and on construction and maintenance of bridges.

BULL AND HORSE SHOW

The Calgary Bull and Horse Show this year was the best ever held during the past 15 years. The quality of horses was better than on former occasions and the bull sale was satisfactory. There were 650 bulls sold and bulls of good breeding and in good flesh brought high prices. Other bulls selling according to quality and condition to the apparent satisfaction of buyer and seller. A number of High River and district farmers were active buyers and sellers. Messrs. J. C. Woods and Van Heywood of Gladys bought a 16 months' old Shorthorn calf of excellent breeding and they are to be complimented on securing such a high class bull. Alex. Stewart had several of his Shorthorn bulls at the sale and got satisfactory prices. T. E. Bowman of Aldersyde had a string of Shorthorns for which he received very good prices. Howard Wilson and Sam Souter, also sold bulls and Martin Fowler of Mazepa purchased a fine Shorthorn bull.

REID HILL NEWS

Mr. and Mrs. Stacey motored to High River on Tuesday.

Messrs. Gordon McKay and Peter McIntyre paid a business trip to Lethbridge this week going down by train.

Miss Pokotilo and Mr. Howe of the Claresholm Agricultural School staff, were visitors in the district over the week end.

Messrs. Wm. Myers and G. Clifford motored down from Calgary Monday to direct their farming operations.

Among those who attended the Horse Show were G. McKay, Mr. and Mrs. Guy Walker also Mr. and Mrs. J. McKay.

Mr. Lockhart entertained Tuesday evening with a stag party for some of our bridge sharks and judging by the hour in the morning when they returned home, a real session was held.

Mr. Freeman is quite ill with rheumatism we are sorry to report.

A number of cars went, well occupied, to Milo on Monday evening to attend a meeting for the purpose of organizing a Baptist Church there. A banquet was a feature of the evening and the service conducted by the eleven ministers present was indeed interesting.

ENSIGN NEWS

"Paint-up and clean-up."

Now is the time to poison gophers! The crocuses are out so it is time to polish up the seed drill for action.

Jim Ferguson has rented two quarter sections of Jack McFadden's farm for this season.

Mr. Art. Haga and wife from Dakota, are visiting his brother A. L. Haga and expect to reside here for some time. They have taken up residence on what is known as "The Homestead."

Mr. and Mrs. John Sweeney returned Saturday from an extended visit in California and points along the west coast. On their return they spent some days with their old friends Mr. and Mrs. Bert McMaster in Vancouver. The McMaster family are always interested in news from old Ensign friends and send greetings to all.

Mr. Wm. McFadden is loading out this week for High River where he has purchased a half section from Mr. Sage west of town. Mr. and Mrs. McFadden will be missed from this district having resided here twelve years and always been closely associated with U. F. A., church and all community projects. On behalf of the district, they were presented with a beautiful arm chair on Friday last as well as Mrs. McFadden being showered with handkerchiefs by the Ladies Aid. We join in best wishes to Mr. and Mrs. McFadden in their new home.

BLACKIE NEWS

Archib F. Letts has received the contract from the village of Blackie to build a new fire hall and jail combined. The main walls will be of tile and the interior partitions laminated with two by fours, plastered. The exterior will be finished with stucco. The place will be built on Aberdeen St. which is the main business street. This is the third new building for Blackie this spring.

The Alberta Branch of the Canadian Red Cross and the Blackie U. F. W. A. wish to express their appreciation to all those who helped to make their Public Health Day a success. Especially do we wish to thank Dr. Burke, the assisting artists of the evening's program, the Auditorium Co., Blackie Hardware Co., Co-Operative Lumber Co., Teachers of Blackie, Brant and neighboring country schools, Manville & Sons Hardware and the Blackie sub. Hospital.

A petition by numerous ratepayers of the Dinton municipality of the Gladys, Glenview and Dinton districts was sent to Councillor J. McKay Andrews of Sheep Creek municipality to have the old Gladys trail graded and repaired according to government specifications. The Arrowwood trail is satisfactory to the township line between Dinton and Sheep Creek, and it is only a matter of grading six miles of road through Sheep Creek to connect with the Macleod trail at Aldersyde. It is to be hoped that some action will be taken by Sheep Creek council at its next meeting to expend a certain sum of money to make this road passable and enable farmers to go to market without floundering through a morass of mud and slush.

FINES OIL COMPANIES

Three oil companies contributed to the provincial revenues in fines and costs last Saturday when they were tried before H. Bannister, police magistrate at Okotoks. The Royalite Oil Company, Ltd., represented by Mr. McKay, was charged with a violation of the Lord's Day act in that their driller had continued to drill the well all day Sunday. The case had been remanded from March 26. At that time T. Draper, manager of the company, and Hilary Herbert, driller, had given evidence that it was impossible to close down for Sunday as they were without casing and they claimed if the drilling were closed down for 24 hours there was great danger of the well caving in. Magistrate Bannister fined the company \$15 and \$6.50 costs.

The Chicago Daily News remarks: A few women do interior decorating. All do more or less exterior.

The Canadian Merchant Marine came within about \$90,000 of paying its operating expenses in 1926.

From Russia the news comes of the sentence of death imposed on three Russian politicians for grafting. Splendid idea.

Sir Thomas Lipton, famous Irish Yachtsman, arrived in New York this week and will issue a challenge for the America Cup.

If you no longer need a thing, and it still has some value or service in it, why not advertise it for sale in the classified ads and realize cash?

Miss Evelyn Neate, a 16-year-old girl of Victoria set a new record by typing 71 words per minute in the recent tests for Canadian championship.

L. B. Roberts of Raymond received word that he won fourth prize at the Calgary stock show in competition for the best car load of fat steers.

With this honor goes a purse of \$125.

The Edmonton Gas Co. will drill two more wells in the Viking field this year. This field is about seven and a half miles long and two miles wide, and gas is encountered on the average of 2,150 feet.

The total coal production in the province for 1926 was 5,608,908 tons, and there was a total of 341 mines operating during the year, with 273 in operation when the year closed. The total men employed was 8,723.

Alberta is now the largest producer of oil and gas in Canada. In 1925 the production of gas amounted to approximately 9,000,000,000 cubic feet, and the production of oil 183,000 barrels.

A cable from Sydney gives the Australian wheat yield in the 1926-7 season at 141 bushels to the acre. This compares with that of the Canadian Prairie Provinces of 18.1 bushels.—Manitoba 16.5, Saskatchewan 17.5, and Alberta 20.1.

The total of motor licenses issued during 1926 was 64,129, with 646 livery licenses, a total increase of more than 11,000 over 1925. In the six cities, 29,592 were registered. The total revenue under the motor vehicles act last year was \$1,153,235.85 compared with \$954,411.85 the year previous. The gasoline tax brought \$423,777.96.

It is reported that the department of agriculture has bought a very fine heavy draft team for the Claresholm school of agriculture from Riddle of De Winton. Messrs. Davison and Evans were buyers at the Laycock dispersion sale of purebred Holsteins at Okotoks. Among others they bought a cow with a record of over 18,000 pounds, testing four per cent. butter fat.

That there is a decided upward trend in the market for Clydesdale horses and that conditions for their breeding are more favorable now than they have been for many years were opinions expressed by Peter Christie, president of the Clydesdale Horse Association of Canada, and J. W. Wheaton, the secretary, during brief addresses at the meeting of the Alberta Association.

ITEMS OF INTEREST

Sir Charles Hibbert Tupper, died at Vancouver on Wednesday in his 72nd year.

The value of U. S. crops last year declined to the extent of \$1,115,000,000.

A half section of land near Claresholm was sold recently for \$75 per acre.

The Great Wall of China, built 2000 years ago, is still in good condition through most of its extent.

The Calgary Power Company will hold an informal opening of their new pumping station at High River on Saturday, April 9 at 3 p.m. to which they cordially invite the public.

Tourists coming to Alberta by car may now stay sixty days under permit, instead of thirty days, an amendment to the regulation in this respect having been made at Ottawa.

The Calgary Power Company made an offer through Mr. Thompson, their representative, to the Council of the town of Claresholm and it is expected arrangements will be made whereby the Power Company will submit an offer to buy the towns power plant and equipment.

Two hundred tons of Southern Alberta alfalfa have been ordered for Hong Kong, China, by the British Department of Agriculture; and the shipment has already been dispatched to the Orient over the Canadian Pacific lines to Vancouver.

The strength of the Church of England in Canada at present is four Archbishops and 21 Bishops, 26 dioceses with 250,000 communicants. The number professing the Anglican faith per census of 1921 was 1,407,959. There are 1,655 clergy, 2,779 churches and 2,000 Sunday schools.

It is understood that the fifty-third annual convention of the Canadian Manufacturers' Association will be held in Calgary, Alberta, early in June. A very important agenda will be presented. It is planned to run special trains from the east to accommodate the delegates. J. M. Taylor, of Taylor-Forbes Company, the president of the association, will be in the chair. W. S. Fallis, the first vice-president, is slated for the presidency.

The annual review of Alberta's finances was presented to the Legislature in session at Edmonton last week by Hon. R. G. Reid, Minister of the Treasury. In view of the fact that the financial year of the Government is to be changed to end March 31st of each year, Mr. Reid presented estimates covering the eighteen months to March 31st of 1928. For the calendar year of 1927, he estimated that there will be a surplus in the provincial treasury of more than \$26,000, with another \$20,000 for the first three months of 1928, making a total surplus of more than \$46,000. The total estimated revenue for 1927 shows an increase over the actual revenue for 1926 of \$588,900, and the estimated expenditures for the present year show an increase over the actual expenditures of 1926 of \$580,500. Two new taxes were announced, the first being a five per cent tax on the turnover of all pari-mutual machines in the province, and the second being an additional tax of one cent a gallon on gasoline. The first is expected to bring \$100,000 into the treasury and the second is expected to bring \$280,000 in.

McLAUGHLIN-BUICK
sets a value that always is the
Standard of Comparison

McLAUGHLIN-BUICK welcomes comparisons. Select any car you wish—compare it point by point with McLaughlin-Buick. Compare the long-standing and stability of its manufacturers—the extent of its resources—the number of cars produced—the number of cars in actual service today—the correctness of its engineering principles—the number and quality of its mechanical features—the provision made for the comfort and convenience of passengers—the quality of the craftsmanship and coach-work—the reputation and prestige it enjoys—the price for which it sells—and the value which it represents.

Compare any or all of these things. Select any measure by which you can judge a car. And, then, from the facts of the case—draw your own conclusions. It is upon such comparisons that McLaughlin-Buick supremacy has been established.

Not Classified—Mary McClement; Billy Monkman and Billy McKenzie.

A total of 323 companies were incorporated or registered during 1926, with a total capitalization of \$44,710,000.

At a meeting of the Alberta Clydesdale Association held at Calgary this week, A. L. Dollar of High River, was re-elected president. It was decided to present a trophy for the best yearling two-year-old Alberta bred Clydesdale stallion exhibited at the Spring Horse Show next year and a medal for the best one, two or three-year-old filly. The cup will become the permanent property of the exhibitor when it has been won two years in succession or three years altogether.

LOCAL FORECAST

Solar ingress in Aries, March 21st, 1927, Edmonton, Alberta. Long. 113 degrees, 30 minutes W Lat. 53 degrees 30 minutes N, local mean time. Then 25 m.a.m. Sidereal time 19-17-31, Greenwich mean time 2:59 p.m.

A chart being erected for above time and place shows 15 degrees, 36 minutes of the Zodiacal sign Taurus, (the Bull) rising on the eastern horizon. This is a fixed, feminine, earthly sign, and rules for the entire year. On examination of the chart one is immediately struck by the outstanding feature of so many planets being placed in the 12th house. Now the 12th house has a special significance concerning prisons, hospitals, asylums, workhouses, reformatories, sanatoriums, and the like. It also rules secret enemies, crime, and criminals and buying and selling of horses. We will consider this house first, also the planets placed therein. Now the Sun being located there shows much publicity regarding the management of above institutions, and being in conjunction with the planet Uranus, also in the 12th we may look for reforms in administration also improvements as regards lighting and power (electricity) used therein. Mercury placed in the 12th house and affected by Venus and Mars foreshadows some untoward events coming to light regarding conditions in above institutions. Jupiter being placed in the 12th house is a favorable indication for the horse market. Throughout the province prices from now on will gradually pick up. Jupiter being afflicted by Mars from the second house also a slight affliction from Venus, expect much expense, extravagance and trouble for officials in public utilities. Complaints will also come to light of crime and cruelty against women and children. Mars being placed in the second house and afflicted by Mercury and Venus and also afflicting Jupiter in the 12th indicates losses in the stock exchange and tightening up of the money market, acting adversely to financial interests, loans and credits, be careful of investments especially in oil stocks, also in speculation generally. This is a good time to go slow, and not assume any more obligations than necessary. Neptune situated in the fifth mansion in good aspect with Sun and Venus from the 12th we may expect much activity in theatrical circles also publicity for Alberta in the "Film World," many companies coming here to "shoot" their scenery. Vice and immorality is also shown with increase of betting and gambling. The Moon being in the sixth house shows sickness and discontent among the people generally. Old Saturn posited in the seventh mansion in the sign of Sagittarius and rules of the sign culminating on Meridian (Capricornus) much discussion will take place between Alberta and the other provinces regarding inter-provincial matters, much disagreement and contention being shown. Regarding crop evidences for the current year, I may say that they look good. Cancer, a wet, feminine fruitful sign being on the cusps of both third and fourth houses. Now the fourth house in Mundane Astrology rules agriculture, crops, mines, minerals and landed interests. The rules of Cancer is the Moon and as she is placed in a fruitful sign also, we may as I said before look for a good crop.

ALEXANDER W. DURHAM
Calgary, Alberta
March 6th, 1927.

Mr. and Mrs. Dan Richmond returned this week from Victoria and Vancouver, where they spent the winter. "Dan" who is one of the real old timers here, says that the coast is alright, but it can't beat Alberta, and especially Vulcan.

Several interesting copies of New Zealand papers are to hand which contains glowing accounts of the appearance in Auckland of the Duke and Duchess of York where they were accorded a most remarkable reception.

818 POOL ELEVATORS

Alberta Will Have 100, Saskatchewan 650 and Manitoba 68. Increase in Membership

The three prairie wheat pools this year will own approximately 818 elevators. It is stated that where the elevator is in good condition and can be purchased at a reasonable price, the pool will buy; failing that, it will build. At the present time the pool owns 22 elevators in Alberta and it is the intention to increase these to one hundred this year. The Saskatchewan pool, it is said, will purchase 50 additional elevators this season, making its total 650, and the Manitoba pool will add about 38 to the 30 elevators now owned in that province. According to figures given out at the Alberta pool office on Wednesday, the total membership to the end of March was 38,956 representing 3,684,727 acres. This is an increase for the past month of 124 members and 10,235 acres.

BACK FROM CONVENTION

V. C. W. Stanley returned last week end from Vancouver where he went as a delegate from Alberta to the annual convention of the Canadian Amateur Hockey Association. Dr. Sandercock of Calgary was re-elected President; Wm. Fry of Dunville, Ont., Vice President; Fred Marples of Winnipeg, Secretary-Treasurer and W. Hewett of Toronto, Dominion Registrar, on the executive committee were elected, Mr. Hamilton of Regina, Mr. Morrison of Montreal and Mr. Watson of Victoria. One of the new regulations passed was that no player would be allowed to make future arrangements with any club, either amateur or senior, and any player moving from one place to another after January 1st, must notify the provincial secretary of such change within two weeks and give the reasons for such change. The resident rule of May 15th still applies. \$7,000.00 was voted by the association to send the winners of the Allen Cup, the Toronto Grads., to the Olympic games in Holland next January.

Would you buy canned goods that bore no label? Would you buy an automobile of unknown make, no matter how cheap? Nobody would be so foolish. You get to trust a name or a label just as you get to trust a man, through satisfactory and honest dealings. That is why kitchen and household utensils bearing the SMP label are bought without question by millions of Canadians. The shield-shaped green and red SMP trademark is a guarantee of full value and best quality. The firm behind SMP goods is

Regarding the Allen Cup games between the Toronto Grads. and the Ft. William Clubs, which he had the pleasure of witnessing, Mr. Stanley stated that they were the best played games ever seen in the dominion in either the amateur or professional ranks. The games drew record crowds on all the games, an average attendance of 11,000 being present at each with total receipts of \$42,500.

A man named Collie is parliamentary candidate for a Scotch seat. He is sure to lead a dog's life during the campaign.

The Finest Eight Performance without Penalty of High Cost

UNTIL the coming of the Hupmobile Eight, this most luxurious form of motoring entailed both high first cost and prohibitive cost of upkeep.

Hupmobile changed all previous conceptions of eight-cylinder performance with a straight-eight of elemental simplicity, designed to give superior smoothness on long fuel mileage.

Thus Hupmobile removed the last obstacles which had prevented thousands from driving an eight, demonstrated its superiority over the higher-priced sixes, and won the largest straight-eight following in the world.

The only way to appreciate the vast difference between Hupmobile Eight and lesser types is to drive this Eight yourself.

Fourteen Distinguished Body Types—priced from \$2715, f.o.b. Windsor. Custom Bodies designed and built by Dietrich.
